

Maksym Sazhko

Experienced and self-motivated Electrical Engineer with five+ years of industry experience on different ships (1974-2013 dates of built), looking for new opportunities in any country (shore/offshore/sea), and on any equipment. Have skills in engineering(developing) of drafts, due to my first degree and first job (ACAD, Revit). Creative and quick studying person with great communication skills, erudite and have great experience with solving extraordinary problems.

Work experience

Electrical Technical Officer Oct 2016 - Feb 2022
VShips

Grown up from trainee to officer. Had 7 contracts - 3 was as trainee, and 4 was as officer. Every contract was perfect- great characteristic and reviews. Had 1 year break for finishing degree before becoming an officer.

Hydrotechnical Engineer Aug 2014 - Jul 2016
Private company, Odessa

Start working as an engineer during my 4th grade at university. Was making drafts, calculations of structures, general plans. After degree, started to communicate with customer, had several business trips.

Education
